

3rd HPML 2020

High Performance Machine Learning Workshop

<http://hpml2020.github.io/>

May 11th, 2020, Melbourne - Australia

Held in conjunction with [IEEE / ACM CCGrid](#)

This workshop is intended to bring together the Machine Learning (ML), Artificial Intelligence (AI) and High Performance Computing (HPC) communities. In recent years, much progress has been made in Machine Learning and Artificial Intelligence in general. This progress required heavy use of high performance computers and accelerators. Moreover, ML and AI have become a “killer application” for HPC and, consequently, driven much research in this area as well. These facts point to an important cross-fertilization that this workshop intends to nourish.

We invite authors to submit original work to HPML. Proceedings will be published in IEEE Xplore.

Submissions must be in English, limited to 8 pages in the IEEE conference format – see:

<https://www.ieee.org/conferences/publishing/templates.html>

All submissions should be made electronically through the EasyChair website -

<https://easychair.org/conferences/?conf=hpml2020>

Submission deadline: February 4th, 2020

Acceptance notification: March 3rd, 2020
