

AI SUMMER SCHOOL 2020

3-7 AUGUST 2020 (MON-FRI)
FULLY VIRTUAL SESSIONS

Following the resounding success of AI Summer School 2019, AI Singapore is pleased to bring back the AI Summer School this year but in a virtual setting.

AI Summer School 2020 will bring together leading experts to educate and foster collaboration among the next generation of researchers. It will enable students, academic researchers and industrial practitioners to realise the growing need to improve the quality of our lives and the exciting possibilities surrounding the use of AI in real-world application domains as well as raise our awareness of the data innovation challenges and issues.

HIGHLIGHTS

Lectures, Tutorials, Hands-on Workshops, Panels, Poster Sessions, Best Practices Discussions, Industry Talks, Small-Group Mentoring Sessions and more!

WHO CAN PARTICIPATE?

The AI Summer School is targeted at undergraduate students with a keen interest in AI research, graduate students, academic researchers as well as industry practitioners. All sessions will be conducted online.
